360L Kompakt

Innovation by design

“

Since the 'Bigger is Better' trial, collection data has shown an **increase in recycling, a reduction in green bin waste and less contamination** where waste is put into the wrong bin. ”

Town of Cambridge, WA

- Specifically designed to **increase domestic recycling capacity** and minimise the leakage of recyclables into the residual waste stream.
- 50% larger bin capacity* in a **footprint similar to the standard 240L bin**.
- Innovative, modern lid **designed to increase evaporation** and channel moisture.
- Unique Australian design (patent applied for) **compatible with existing lifting systems**†
- Manufactured in Australia in accordance with **AS 4123** standards.

* The 360L bin is 50% larger than the standard 240L bin based on a comparison of their nominal bin volumes.

† Check the suitability of your lifter with SULO or your lift equipment supplier.

“ It's not hard for families to fill their current recycling bins and these larger SULO 360L bins make it easier for them to do the right thing ”

360° of Innovation which ever way you look at it

Look at its applications

- **50% more capacity* in the same space.**

The 360L Kompakt has 50% more capacity* yet takes up a similar footprint on the kerbside as the standard 240L bin.

- **Easy for anyone to manoeuvre.**

Innovative design features with rear footstep to assist tilt and front handgrips make the 360L easy to manoeuvre.

- **Matches larger recycling needs.**

Councils are now offering the 360L option to larger households, multi-unit dwellings, public recreational facilities, and businesses.

- **Reduces council lift fees.**

One 360L Kompakt can be substituted for 2 x 240L bins.

- **Cost effective.**

Two 360L Kompakt bins (720L total capacity) can be substituted for an industrial 660L bin.

- **Ideal for green waste recycling.**

Councils in garden suburbs are now offering the 360L option.

- **Also ideal for parklands and open space recreational areas.**

Look how it fits into the optimal bin system

The SULO 360L Kompakt is an important option for councils looking to proactively increase domestic recycling capacity while at the same time reducing landfill costs and environmental impact.

360L Kompakt

Innovation by design

Lid accommodates for the application of multi-colour print, full colour permanent label applied during manufacture

Vertical and horizontal chip nests to discretely secure RFID tags for managing bin fleets

Contains up to 30% recycled content and is compatible with standard SULO parts and accessories

Kompakt Dimensions – Weights - Standards

Nominal volume: 360 litres

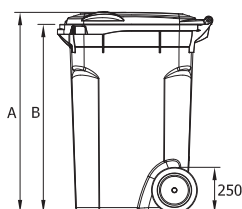

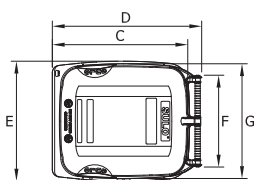

Net weight: approx 17 kg

Max load: 144 kg

Permitted total weight: 159 kg

A 1100mm E 680mm
B 1028mm F 520mm
C 770mm G 650mm
D 848mm

Measurements to be used as a guide only – variations will occur

Contoured unique easy grip handles for comfort and easy manoeuvring

Ergonomic new look lid with optional ventilation to increase moisture evaporation

Increased volume whilst maintaining a small footprint similar to that of a standard 240 litre bin

Large customising area on both lid and body

Textured finish on lifting columns for secure grip when lifting

Large 250mm wheels for improved stability and handling

Rubber tyres for a quieter operation

Rear foot step assists in tilting and manoeuvring the bin

Standard colours - black, nature green, dark green and grey.

Special colours are available on request – common colours include blue, yellow and red. Minimum batch quantities apply.
